Following on from last year's successful visit to Bentley Park and to fulfil my 'air' theme for this year we are going to visit the newly refurbished RAF Museum in Hendon. For the 100th anniversary of the RAF the museum has been transformed (with the aid of £23m) with major new buildings and a revamping of existing buildings. There are now five major areas to explore and we will have guided tours of two of these and be free to explore the other exhibits at leisure.

On arrival there will be morning coffee followed by our first tour, then lunch (2-course), our second guided tour, free time to explore and finally an afternoon cream tea. New highlights (some of which attract a supplement) include being able to sit in a real Spitfire, the 4D theatre and the various displays within the historic hangers, bomber hall, Grahame White watch office and aircraft factory.
